***BONUS:** Access to my
online wording portal*

the process

01

Gather

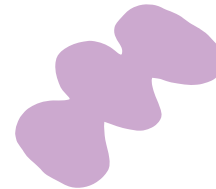

Let the journey begin! You'll be provided with prompts and templates to provide all the information and inspiration needed to bring your stationery to life. I recommend starting this process about 8-12 weeks before you want to post your invites.

02

Create

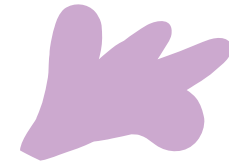

Now the magic begins! I'll dive into crafting your personalised design concepts. (The best part: there's no cap on revisions! I'll happily tweak and refine your proofs until every detail is picture-perfect and reflects your unique style.)

03

Print

Once you've given the green light on your designs, it's time to bring it to life. Sit back and relax as your designs are sent off to the best in the print business for flawless production.

04

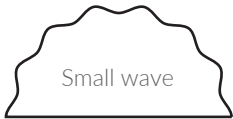

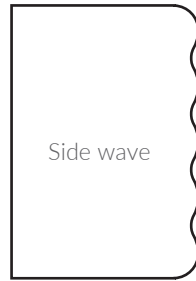

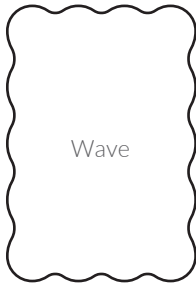

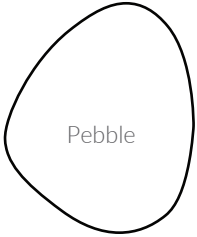

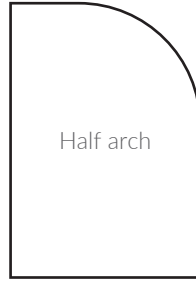

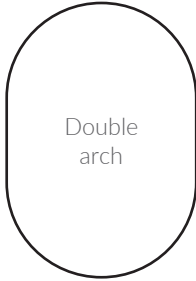

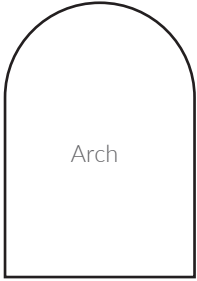

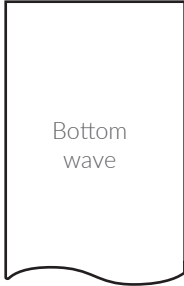

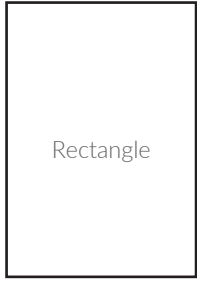

Deliver

Get your stamps ready! Your items will be delivered within 3-4 weeks from artwork approval. Keep in mind you'll need to assemble and envelope your items as they will arrive unassembled.

Q

What if I need my items FAST

A

If you're a little behind, rush order options are available for an additional fee, however you may be more limited in options such as shapes or materials used.

Q

What type of stamp do I need?

A

As long as your final package is 240mm x 130mm and no thicker than 5mm you will need a \$1.50 stamp (this will apply to most invites).

Q

What does “from” mean for pricing?

A

Pricing is based on our curated collections and standard stock selections. If you wanted to upgrade to a custom design, double sided print, white ink print, a coloured envelope, a specialty print method or a premium cardstock colour, the cost would increase.

If you have any other questions please DM me on Instagram
